

# CHALLENGING WORK, BETTER MONEY, REAL SKILLS

*"It's the most I've ever earned an hour, and that's just the starting rate. I would recommend it to anybody who wants to improve themselves and get out of the benefit cycle." - **Blake Taylor, Whiti graduate.***

- + Two-week cadetship.
- + Long-term employment contracts are available with approved employers.
- + Training in logistics.
- + Learn to operate a forklift using virtual reality (VR) technology.
- + Confidence and skills development.
- + You will be employable and can start earning right away.
- + Employment entitlements like holidays, sick pay and KiwiSaver.
- + Employers selected and approved on how good they are to their staff.
- + Real-world training. Real skills.
- + Learning includes health and safety.
- + Friendly and supportive environment.

*"They care about the people rather than looking at you as just workers. We weren't just numbers. I didn't expect that. I enjoyed the motivation and encouragement they gave me and loved the virtual reality simulator part of the cadetship." - **Maizey Donaldson, Whiti graduate.***

Whiti has a list of employers who are looking to hire supply chain workers right now. This two-week training programme will get you work-ready and place you in a suitable role when you graduate.

Ask your Case Manager about applying for the Whiti Cadetship today.

# A REAL PATHWAY TO A BETTER CAREER

“Today, I’m earning almost \$10/hr more than the minimum wage. Whiti gave me confidence, friends and a position I love. It’s one of the best things I’ve done in my life. People ask me on social media how somebody can go from picking fruit in an orchard to being a Gatehouse supervisor, and I tell them Whiti.” – **Osheanah Abbot, mother of four, Whiti graduate.**

Completing the Whiti Cadetship gives cadets highly transferable and sought after skills, both practical and personal. You will gain a wealth of confidence in yourself and your new abilities, and employers welcome well rounded new team members who fit the role and their organisation.

## CERTIFIED SKILLS

The innovative VR training component means at the end of the two-week course, you can emerge with similar technical skills to somebody who has been driving a forklift for at least a year.

Certification proves competency to operate equipment.

- + Highly sought after world-leading competency and the NZ Forklift Operator Certificate.
- + Innovative Virtual Reality forklift simulators provide a specialised, safe training environment.
- + Real equipment practice and one-on-one coaching.

“Whiti helped me find outside employment. They encouraged me to be my best and to step out of my comfort zone, and they helped me do that.” - **Ebony Arthur, Whiti graduate.**
